Freightliner Fuse Boxes & Panels For Sale ...

Made their own wiring runs in there and put an inline fuse in there and taped it all up. Also, they put a 15 amp fuse in the fuse panel for the back up lights. I snatched it all out and returned it to factory set up with 1x back up light with 10 amp fuse in the fuse panel and back to 2x brake lights.

Any suggestions for reverse light not working ...

Freightliner MT45 Brake Parts | Mill Supply, Inc.

This is not going to be a misprint! I am guessing that you have a Columbia/Century? Did you notice that there is no fuse for reverse lights? It gets it's power from the air dryer heater circuit. First check the fuse for the air dryer heater. If it is blown, go to dryer and unplug 2 pin heater plug. If not, then start tracing wires as stated above.
