Booko: Search results for John P. J. Pinel

Biopsychology is an introduction to the study of the biology of behavior; it focuses on the neural mechanisms of psychological processes. The defining feature of Biopsychology is its unique combination of cutting-edge biopsychological science and student-oriented discourse. Rather than covering topics in the usual textbook fashion, it interweaves the fundamentals of the field with clinical case studies, personal implications, social issues, helpful metaphors, and memorable anecdotes.
