## **iPhone 5 - Technical Specifications**

The iPhone 5 has only one more button than the original iPhone, and that's only because Apple made the old volume rocker switch into separate + and - buttons in the iPhone 4 (and subsequent models). An LED flash sits alongside the camera lens aperture on the rear of the phone, and provides enough power for close-range shots and a little 'fill' in daylight or silhouette conditions.

## **Apple iPhone 5 Camera Review: Digital Photography Review**
