Ok so I took the MCAT before and will speak from my experience. The section back is more focused on molecular bio and biochem. The question packs give you a good mix of everything. the actual thing was 70% section bank style and 30% similar to the question packs. You have to know physiology to get a good score but not in so much details.

Physiology on the MCAT? : Mcat

Granted I have not taken my MCAT (tomorrow at 8:00 am), but based on the aamc's I would say physiology is important. I have taken quite a few physiology courses and feel I have a strong understanding of the concepts. Quite a few of the passages seemed to contain physiology questions, whether or not the concepts were even discussed.
