Many thousands of people die in motor vehicle crashes every year in the United States (more than 30,000 in 2015); self-driving vehicles could, hypothetically, reduce that number—software could prove to be less error-prone than humans—but cybersecurity is still a chief concern. Equity is another major consideration. Self-driving technology ...

The speed and direction that a vehicle drives over the channel is also a factor and should be reflected in the load bearing capabilities. For example, if the driveway is on a slope, vehicles may be turning faster and at a different angle compared to one that is on a flat level. It is important to plan for the maximum load a channel may have to ...
