can provide services simultaneously on the 2.4 GHz and 5 GHz frequency bands to support more access users.

Product Overview - Huawei

Product Overview Huawei AP8030DN and AP8130DN are the latest-generation 802.11ac outdoor access points (APs) that support 3x3 MIMO. The APs are physically hardened and feature enhanced outdoor coverage performance. They support 2.4 GHz and 5 GHz frequency bands, comply with IEEE 802.11a/b/g/n/ac, and can work as wireless bridges.
